

“The treatment was excellent, the nurses fantastic and they kept my family posted every hour, on the hour.”

Gina Lenhard is co-owner of the **Yogi Bear Paradise Pines** in North Hudson, NY. In 2006 a stress test revealed Gina needed a coronary bypass. During her successful surgery at the Champlain Valley Heart Center Gina was impressed by the level of care, concern, compassion and communication by the CVPH staff.

“We run a busy campground and do have emergencies. We feel the care that people get when we send them north to CVPH is much better than anything we have experienced any place else.”
